

Instructions for activating the signal socket on EXPERT 75 and CCI100

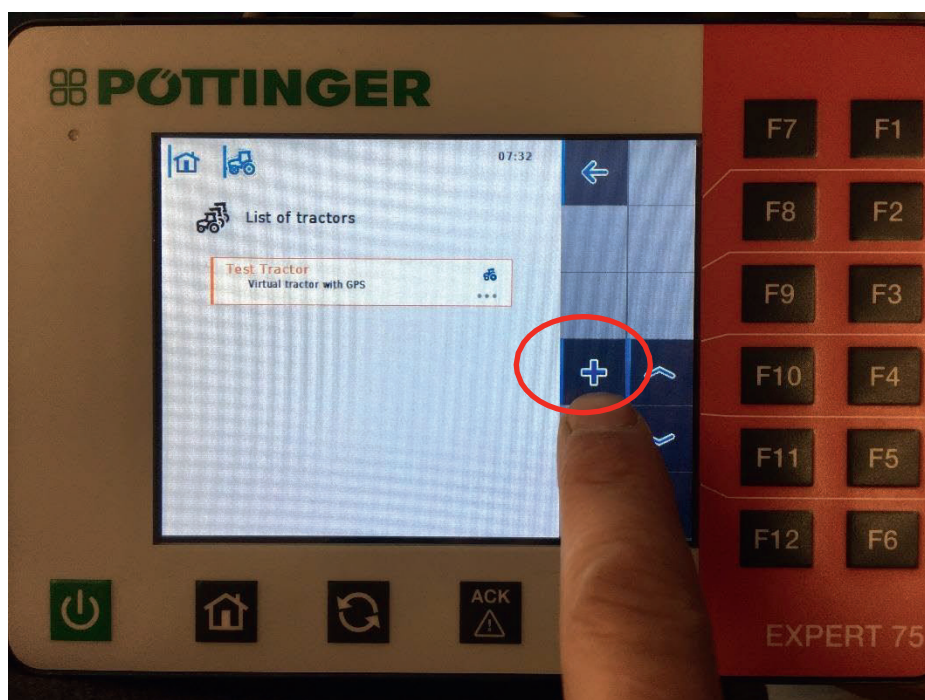

Rainer Bumberger, 10.07.2019

Hardware:

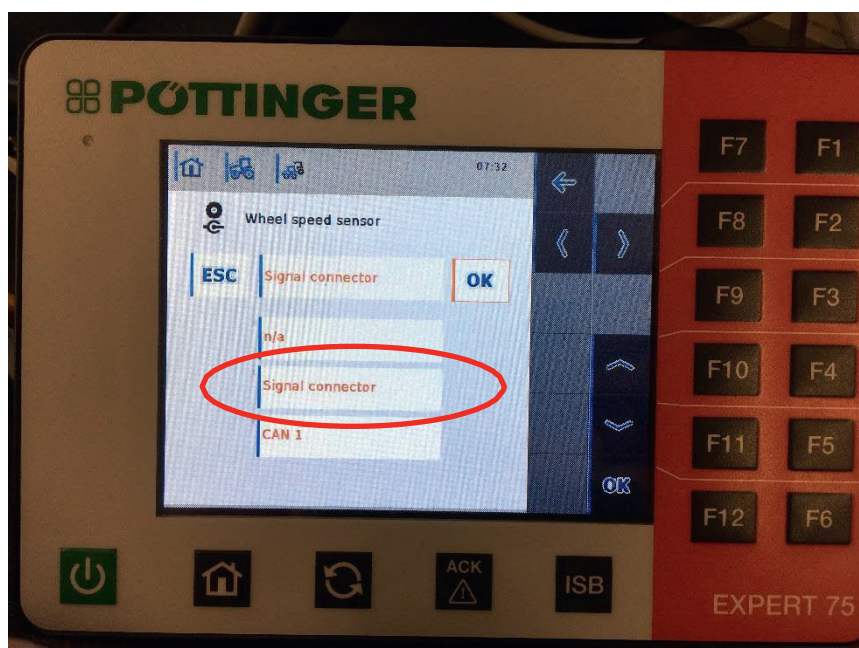

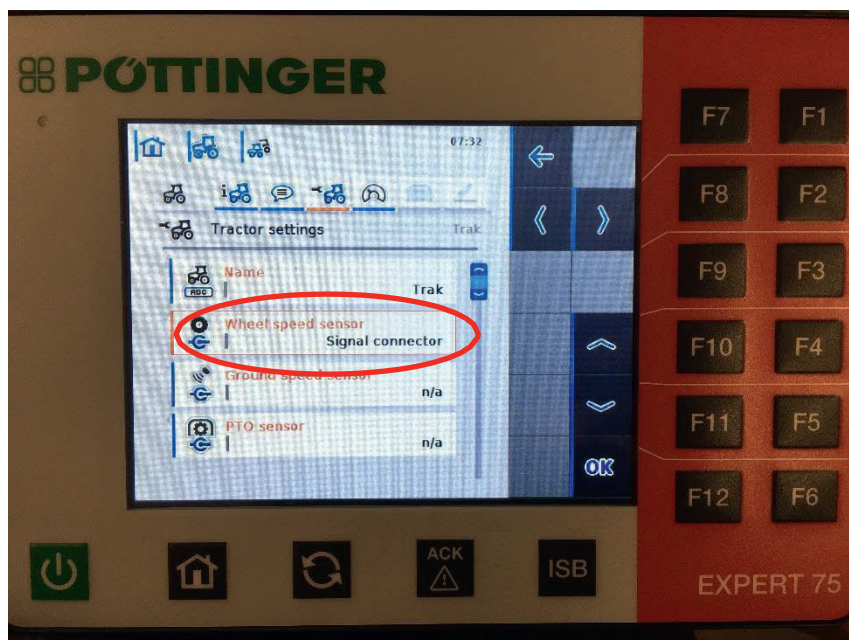

487.573	Adapter cable: Amph.7pol P 2m M12 12pol S - EXPERT 75
487.473	Adapter cable CCI100 HW2.0

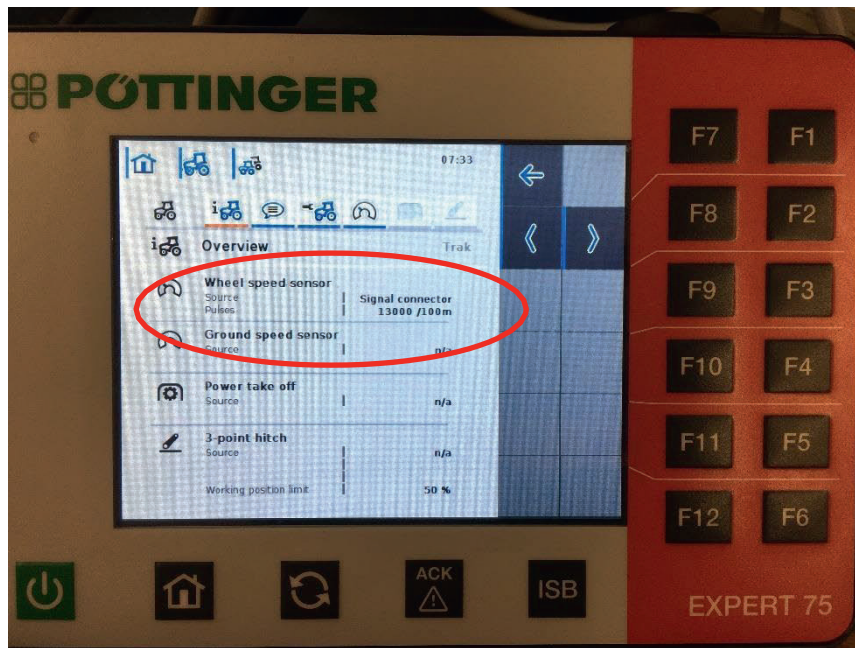

Software:

1. Open TECU
Add new tractor using the + button

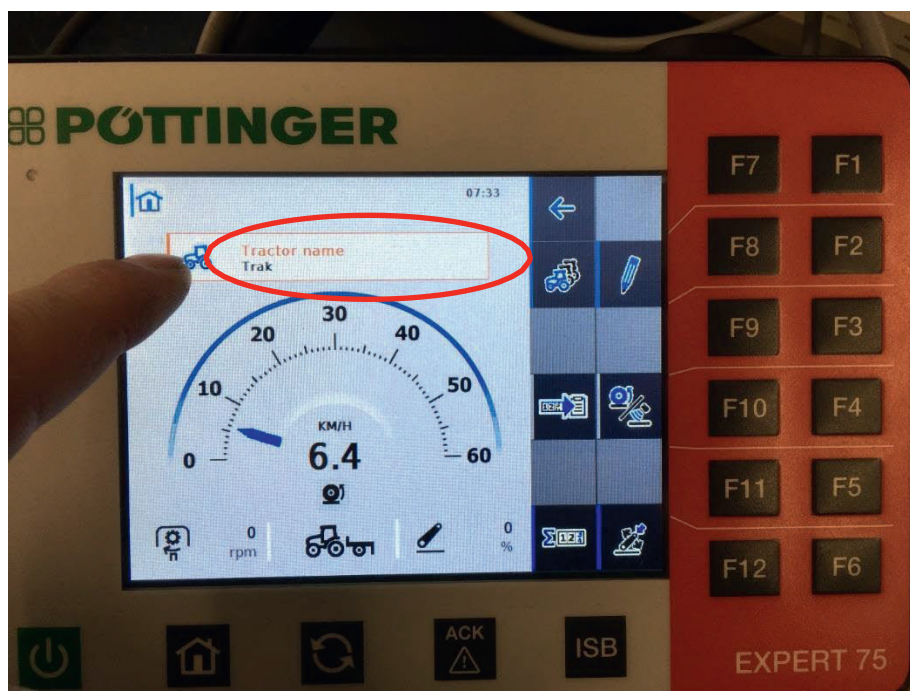

2. Enter tractor name (freely selectable)
Select wheel speed sensor -> signal socket

3. Select tractor

4. Finished.

The ISOBUS machine recognizes the speed.
